Gornji Vakuf - Uskoplje, Bosnia and Herzegovina

CELIC TARIK

WEB DEVELOPER

Self-taught web developer with 2 years of experience, building full-stack applications with Next.js, TypeScript, Prisma and PostgreSQL. Experienced through independent projects and a 3-month internship.

FEATURED PROJECTS

Aven
a web and mobile ride-hailing and delivery platform for Bosnia and Herzegovina, with live maps and real-time tracking.

Craft
a webshop with a large product catalog, built independently during my internship at **P23**. It handles browsing, searching and managing a big range of products.

Dentis
a web app for booking dental appointments. Patients pick a service, a dentist and a free time slot, while clinics manage schedules, services and bookings from an admin dashboard.

EDUCATION

High School
Mješovita Srednja Škola Gornji Vakuf

Information Technology & Computing Technician
graduated 2027.

EXPERIENCE

P23
Internship - 3 months

- Built a webshop using Next.js, TypeScript, Prisma and PostgreSQL
- Designed the relational database schema for products, categories and related data with Prisma
